

## Manufacture of the Industrial Piping : PE & PP

### APPLICATIONS

- Water Supply Scheme
- Sewage Piping System
- Chemical Industries
- Plant Effluent disposal
- Waste Water Disposal pipeline
- Lift Irrigation system
- Agricultural
- Fuel Gas Distribution
- Construction industry
- Electrical cable ducting
- Marine & Dragging piping

### Features & Characteristics

- Corrosion resistance
- Light weight & Flexible
- Impact resistance & Tough, Durable
- Smooth surface-Low pipe friction losses
- Long service life
- Low electrical conductivity
- Environmental friendly
- Good weldability
- Easy to install with butt fusion welding
- Easy to install with Electro fusion technique

### Advantages of Use

- Long track record of excellent performance, approaching 50 years worldwide
- High impact and breakage resistance
- High resistance to chemicals, corrosion, decaying and abrasion.
- Higher durability & advantage of easy installation and transport without material loss.
- High resistance to direct sunlight (UV resistance for long time from UV resistance agent included in the manufacturing process).
- High Stress Crack Resistance prevents inching growth of cracks.

# Industrial Piping Solutions

## Under One Roof

9001 - 2008 Certified Company

**SHK**<sup>®</sup>  
PP - PE  
Pipes & Fittings

## Manufacture of the Industrial Piping : PE & PP

SHK Polymers Industries, group company of Shree Harikrishna, the company growth with the leadership of an experienced management team, well qualified in their fields and efficiently serving in the industrial sectors with their good & quick services since long time.

### Manufacture Of The Industrial Piping: Polyethylene & Polypropylene

SHK Polymers Industries, and ISO-9001-2000 certified company based at Ahmedabad, Gujrat manufacture of the Thermoplastic Industrial Piping systems which includes, A wide range of products...HDPE, PP, PPR-C, PPR-FR, Pipes & Fittings, Telecom Duct and Sprinkler Irrigation system. Our plant located at vatva is equipped with the most sophisticated & advance machineries to manufacture the products confirming to the standards laid down by Indian & International standards requirements. Products suitable for Transportation of liquids, chemicals & gas avoiding the issues like corrosion, abrasion & longer life of the piping system.

### Our Product

- PE Pipe: IS 4984, IS 14333
- PE Pipe: ISO 4427, DIN 8074
- PPR-C, PPR-FR, PPCH Pipe: DIN 8077
- PLB HDPE Telecom Duct: TEC/GR
- PE Sprinkler Pipes & Accessories: IS 14151

### Specialty Piping Solution

Electrical Conduit, Anti-Rodent & Anti Termite PE Dredging Pipes, Floaters & belts, Custom Fabricated Manholes & tanks

### HDPE PIPES

SHK Polymers Industries, one of the leading manufactures of the High Density Polyethylene (HDPE) Pipes has good quality standards, smooth finish, dimensional accuracy and other values as per relevant standards. Our products are manufactured of the best quality of Raw material procured from the most reliable sources available in world.

Arange of size is available between: 20mm to 315mm in pressure ratings 2.5 to 16 kg/cm<sup>2</sup>.
